NOTE 2

STATEMENT OF COMPLIANCE AND SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) IAS 34, Interim Financial Reporting, as issued by the International Accounting Standards Board (“IASB”) and thus do not contain all the disclosures applicable to the annual audited consolidated financial statements.

The condensed consolidated financial statements were approved and authorized for issue by the Board of Directors on November 4, 2021.

These condensed consolidated financial statements use the same accounting policies and methods of their application as the most recent annual audited consolidated financial statements and should be read in conjunction with the most recent annual audited consolidated financial statements which include the significant accounting policies most affected by estimates and judgments.

At this time, the duration and impact of the outbreak of the novel strain of coronavirus, specifically identified as “COVID-19” is unknown as is the effectiveness of the government and central bank interventions. Any estimate of the length and severity of these measures are therefore subject to significant uncertainty and, accordingly, estimates of the extent to which the COVID-19 pandemic may, directly or indirectly, materially and adversely affect the Company’s operations, financial results and condition in future periods are also subject to significant uncertainty. Management believes it is currently not possible to estimate the long-term impacts the outbreak of COVID-19 will have in determining estimates of fair market value for the Company’s real estate properties, investments in joint arrangements and the valuation of financial instruments. In a long-term scenario, the significant assumptions used in the assessment of fair value and impairment, including estimates of future operating cash flows, the time period over which they will occur, an appropriate discount and capitalization rate and stabilized net operating income (which is primarily influenced by revenue growth, vacancy rates, inflation rates and operating costs), could potentially be impacted, which ultimately impact the underlying valuation of the Company’s real estate properties and equity-accounted investments.

Acquisitions

During the year ended December 31, 2020, the Company completed no material acquisitions.

Dispositions

On March 25, 2020, the Company sold its 50% interest in an industrial property, comprising 284,000 square feet located in Puslinch, Ontario, for gross proceeds of \$38,577, including closing costs, and the purchaser assumed the mortgage secured by the property in the amount of \$10,498. In addition, the Company's equity-accounted investment, MIL Industrial Fund II LP, sold its interest in the property.

On August 18, 2020, the Company sold a retail property and an adjacent parcel of land classified as held for development located in Ottawa, Ontario, comprising 10,000 square feet, for net proceeds of \$6,800, including closing costs.

Capitalization Rates

As at September 30, 2021, and December 31, 2020, the Company had its portfolio internally appraised. In addition, the Company's U.S. portfolio is appraised by independent U.S. real estate appraisal firms on a three-year cycle.

The Company determined the fair value of each income producing property based upon, among other things, rental income from current leases and assumptions about rental income from future leases reflecting market conditions at the applicable consolidated balance sheet dates, less future cash outflow pertaining to the respective leases. The Company's multi-suite residential properties are appraised using the direct capitalization of income method. The retail, office and industrial properties are appraised using a number of approaches that typically include a discounted cash flow analysis, a direct capitalization of income method and a direct comparison approach. The discounted cash flow analysis is primarily based on discounting the expected future cash flows, generally over a term of 10 years, including a terminal value based on the application of a capitalization rate to estimated year 11 cash flows.

As at September 30, 2021, the duration and impact of the COVID-19 pandemic is unknown. The impact of COVID-19 on estimating fair values for the Company's properties at September 30, 2021, required judgment based on evolving facts and available information, particularly for the retail properties, which have experienced significantly lower collections and higher tenant failure rates. In addition, it is not possible to estimate the long-term impacts COVID-19 will have on the Company's valuation of income producing properties as the length and severity of these developments are subject to significant uncertainty.

As at September 30, 2021, using the direct capitalization approach, the multi-suite residential, retail, office and industrial properties were valued using capitalization rates in the range of 3.3% to 9.8% (December 31, 2020 - 3.3% to 9.8%), resulting in an overall weighted average capitalization rate of 5.4% (December 31, 2020 - 5.4%).

The stabilized capitalization rates by asset type are set out in the following table:

As at	September 30, 2021					December 31, 2020				
	Occupancy Rates		Capitalization Rates			Occupancy Rates		Capitalization Rates		
	Max.	Min.	Max.	Min.	Weighted Average	Max.	Min.	Max.	Min.	Weighted Average
Multi-suite residential	98.0%	92.0%	6.8%	3.3%	4.3%	98.0%	92.0%	6.8%	3.3%	4.3%
Retail	99.0%	85.0%	9.8%	5.3%	7.0%	99.0%	85.0%	9.8%	5.3%	6.9%
Office	100.0%	90.0%	7.8%	4.3%	6.2%	100.0%	90.0%	8.5%	4.3%	6.2%
Industrial	100.0%	95.0%	6.0%	4.3%	5.1%	100.0%	95.0%	6.8%	4.8%	5.3%

The key valuation metrics used in the discounted cash flow method for the retail, office and industrial properties are set out in the following table:

As at	September 30, 2021			December 31, 2020		
	Maximum	Minimum	Weighted Average	Maximum	Minimum	Weighted Average
Retail						
Discount rate	10.5%	6.0%	7.3%	10.5%	6.0%	7.3%

Terminal cap rate	6.5%	5.0%	5.3%	6.0%	5.0%	5.4%

Fair values are most sensitive to changes in discount rates, capitalization rates and stabilized or forecast net operating income. Generally, an increase in stabilized net operating income will result in an increase in the fair value of the income producing properties, and an increase in capitalization rates will result in a decrease in the fair value of the properties. The capitalization rate magnifies the effect of a change in stabilized net operating income, with a lower capitalization rate resulting in a greater impact on the fair value of the property than a higher capitalization rate. If the weighted average stabilized capitalization rates were to increase or decrease by 25 basis points (assuming no change in stabilized net operating income), the value of the income producing properties as at September 30, 2021, would decrease by \$433,681 and increase by \$479,895, respectively.

The sensitivity of the fair values of the Company's income producing properties as at September 30, 2021, and December 31, 2020, is set out in the table below:

As at	September 30, 2021		December 31, 2020

Dispositions

On July 6, 2020, the Company sold a hotel located in Sydney, Nova Scotia, for gross proceeds of \$10,763 (including a promissory note receivable of \$500), resulting in aggregate net cash proceeds of \$2,973 after deducting the repayment of first mortgage loan of \$6,666 and working capital adjustments. On disposition the recoverable amount exceeded the carrying value of the property of \$8,072, resulting in a gain of \$2,067, including closing costs.

On November 2, 2020, the Company sold a hotel located in Red Deer, Alberta, for gross proceeds of \$18,533 (including a promissory note receivable of \$14,500), resulting in aggregate net cash proceeds of \$3,938 after deducting working capital adjustments. On disposition the carrying value of the property of \$19,011 exceeded net proceeds including closing costs, resulting in a provision for impairment of \$573.

Impairment Provision

The Company identified each hotel property as a cash-generating unit for impairment purposes. The recoverable amounts of the hotel properties have been estimated using the value-in-use method or fair value less costs to sell. Under these calculations, discount rates are applied to the forecasted cash flows reflecting the assumptions for hotel activity. The key assumptions are the first year net operating income and the discount rate applied over the useful life of the hotel property. IFRS permits an impairment provision to be reversed in the subsequent accounting periods if recoverability analysis at that time supports reversal.

During the nine months ended September 30, 2021, impairment indicators were identified and a recoverability analysis was completed in accordance with the procedures specified by IFRS, which indicated that an impairment provision of \$45,289 should be recorded at 14 hotels. The table below provide details of first year net operating income and the discount rates used for valuing the hotel properties.

During the year ended December 31, 2020, impairment indicators were identified including interruptions to business operations at certain hotel properties resulting from emergency measures enacted to combat COVID-19. A recoverability analysis was completed in accordance with the procedures specified by IFRS, which indicated that an impairment provision of \$37,041 should be recorded. The table below provide details of first year net operating income (loss) and the discount rates used for valuing the hotel properties.

(a) Canada Emergency Wage Subsidy

On April 11, 2020, the Canada Emergency Wage Subsidy was enacted, which provides a subsidy for each employee employed between March 15 to June 6, 2020. Subsequently, the Government of Canada extended CEWS to October 23, 2021. The subsidy varies depending on the decline in revenue for each claim period. A company, or a group of companies under common control, will become eligible for the program if they've experienced a reduction in revenue during the qualification period.

The Company and associated related party group under common control with the Company, including Morguard's parent company, Paros Enterprises Limited, have satisfied certain eligibility criteria, including (among others) a significant decline in revenue due to the temporary closures of non-essential services. The Company will continue to assess its eligibility for subsequent claim periods.

For the three months ended September 30, 2021, the Company recorded \$3,702 (2020 - \$7,526) as a deduction of the related expense, of which \$461 (2020 - \$713), \$2,595 (2020 - \$5,148), and \$646 (2020 - \$1,665) are a deduction of property operating costs, hotel operating expenses and property management and corporate expenses, respectively.

For the nine months ended September 30, 2021, the Company recorded \$16,670 (2020 - \$20,946) as a deduction of the related expense, of which \$1,561 (2020 - \$4,837), \$12,491 (2020 - \$9,603) and \$2,618 (2020 - \$6,506) are a deduction of property operating costs, hotel operating expenses and property management and corporate expenses, respectively.

(b) Canada Emergency Commercial Rent Assistance

During 2020, the Government of Canada partnered with the provincial governments to deliver the CECRA program. The program intended to provide relief for small businesses and commercial landlords who experienced financial difficulties during the COVID-19 pandemic.

Over the course of the program, property owners reduced rent by at least 75% for the months of April through September 2020 for their small business tenants. The Government of Canada, via a forgivable loan, covered 50% of the rent, with the tenant paying up to 25% and the landlord forgiving at least 25%. The interest-free loans were forgiven on December 31, 2020, if the property owner agreed to terms, including reducing the small business tenants' rent by at least 75% under a rent reduction agreement and the landlord followed the terms and conditions of the loan, including complying with the rent reduction agreement and ensuring the attestation and application (including supporting documentation) was accurate and truthful. The Company finalized and received all applications under the CECRA program.

During 2020, the Company filed CECRA applications for 634 tenants, comprising the landlord's portion and the Government of Canada's loan forgiveness portion. The loan amount forgiven was recorded as a deduction or offset to bad debt expense within property operating costs, representing approximately 50% of rent payable by eligible small business tenants during the months of April through September 2020.

The Company is contingently liable with respect to litigation, claims and environmental matters that arise from time to time, including those that could result in mandatory damages or other relief, which could result in significant expenditures. While the final outcome of these matters cannot be predicted with certainty, in the opinion of management, any uninsured liability that may arise from such contingencies would not have a material adverse effect on the financial position or results of operations of the Company. Any settlement of claims in excess of amounts recorded will be charged to operations as and when such determination is made.

NOTE 25 MANAGEMENT OF CAPITAL

The Company monitors its capital structure based on an interest coverage ratio and a debt to gross book value ratio. These ratios are used by the Company to manage an acceptable level of leverage and are calculated in accordance with the terms of the specific agreements with creditors and are not considered measures in accordance with IFRS, nor is there an equivalent IFRS measure.

The Company's Unsecured Debentures contain covenants that are calculated on a non-consolidated basis, which represents the Company's consolidated results prepared in accordance with IFRS as shown on the Company's most recently published annual audited consolidated financial statements, adjusted, as required, to account for the Company's public entity investments in Morguard Residential REIT and Morguard REIT using the equity method. The covenants that the Company must maintain are a non-consolidated interest coverage ratio above 1.65 times, a non-consolidated debt to gross book value ratio not to exceed 65% and a minimum non-consolidated equity requirement of at least \$300,000. If the Company does not meet these covenants, the Unsecured Debentures will become immediately due and payable unless the Company is able to remedy the default or obtain a waiver from debenture holders. The Company is in compliance with all Unsecured Debenture covenants.

NOTE 26

FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

Refer to the Company's annual audited consolidated financial statements as at and for the year ended December 31, 2020, for an explanation of the Company's risk management policy as it relates to financial instruments.

Fair Value of Financial Assets and Financial Liabilities

The fair values of cash, restricted cash, amounts receivable, accounts payable and accrued liabilities and bank indebtedness approximate their carrying values due to the short-term maturity of those instruments. The fair values of mortgages and loans receivable are based on the current market conditions for financing loans with similar terms and risks. The loans payable are reflected at fair value since they are based on a floating interest rate and reflect the terms of current market conditions.

Mortgages payable, Unsecured Debentures, convertible debentures, lease liabilities and finance lease receivable are carried at amortized cost using the effective interest rate method of amortization. The estimated fair values of long-term borrowings have been determined based on market information, where available, or by discounting future payments of interest and principal at estimated interest rates expected to be available to the Company.

The fair value of the mortgages payable has been determined by discounting the cash flows of these financial obligations using September 30, 2021, market rates for debts of similar terms (Level 2). Based on these assumptions, the fair value as at September 30, 2021, of the mortgages payable before deferred financing costs and mark-to-market adjustments is estimated at \$4,531,687 (December 31, 2020 - \$4,552,081), compared with the carrying value of \$4,380,991 (December 31, 2020 - \$4,282,087). The fair value of the mortgages payable varies from the carrying value due to fluctuations in interest rates since their issue.

The fair value of the Unsecured Debentures liability is based on its closing bid price (Level 1). As at September 30, 2021, the fair value of the Unsecured Debentures has been estimated at \$839,871 (December 31, 2020 - \$1,039,322) compared with the carrying value of \$825,000 (December 31, 2020 - \$1,025,000).

The fair value of the convertible debentures liability is based on their market trading prices (Level 1). As at September 30, 2021, the fair value of the convertible debentures before deferred financing costs has been estimated at \$199,012 (December 31, 2020 - \$196,539), compared with the carrying value of \$195,500 (December 31, 2020 - \$195,500).

The fair value of the finance lease receivable is determined by discounting the cash flows of the finance lease receivable using September 30, 2021, market rates for debt on similar terms (Level 3). Based on these assumptions, as at September 30, 2021, the fair value of the finance lease receivable has been estimated at \$57,629 (December 31, 2020 - \$57,185).

The fair value hierarchy of financial instruments and real estate properties measured at fair value in the consolidated balance sheets is as follows:

	Level 1	Level 2	Level 3	Level 1	Level 2	Level 3
